

```
package lib1;

public class StdVsObjects {

    public static void main(String[] args) {
        Object obj = "Abc";
        System.out.println(obj.getClass());
        obj = 10.50; // Auto-boxing
        System.out.println(obj.getClass());

        Double d = (Double) obj;
        double p = d;
    }
}
```
