

```
package lib2;

import java.util.ArrayList;
import java.util.HashMap;

public class GenerticsDemo {

    public static void main(String[] args) {
        var al = new ArrayList(); // not type-safe

        al.add("Abc");
        al.add(10);
        var s = (String) al.get(0);

        var names = new ArrayList<String>(); // type-safe
        System.out.println(names.get(0).toUpperCase());

        var marks = new ArrayList<Integer>();
        marks.add(10);

        var count = new HashMap<String, Integer>();
        count.put("Java", 1);

        // var s = "abc";
        // s.split("[,;:]");

    }

}
```
