```java
package lib2;

import java.io.RandomAccessFile;

public class PrintMarks {

    public static void main(String[] args) throws Exception {
        try (var raf = new RandomAccessFile("c:\\imaginnovate3\\marks.dat", "rw")) {
            int rollno = 10;
            int pos = (rollno - 1) * 4;
            raf.seek(pos);
            System.out.println(raf.readInt());
        }
    }

}
```
