```java
package inheritance;

import javax.persistence.DiscriminatorValue;
import javax.persistence.Entity;

@Entity
@DiscriminatorValue("2")
public class Student extends Person {
    private String college;

    public String getCollege() {
        return college;
    }

    public void setCollege(String college) {
        this.college = college;
    }

    @Override
    public String toString() {
        return "Name = " + this.name + " college=" + college;
    }

}
```
